Hunterdon Hoosiers, Inc.
EpiPen POLICY

All administrators, coaches, youth athletes and their parent or guardian should review information concerning our EpiPen policy.

1. All EpiPens must show a valid expiration date.

2. EpiPens cannot be a recalled product (*In 2015, there was a widespread recall).*

3. If your child has a food allergy, the EpiPen should be kept with their food/snacks.

4. If your child has an allergen to anything other than food, it should be kept in their bag which must be in the gym your child is in. The bag should have a visible tag on it so staff can identify the bag in case of an emergency.

5. EpiPen Procedure During Allergic Reaction: If there is a concern that an athlete has been exposed to their allergen, the EpiPen will be administered and 911 will be called.

6. CAMP ONLY: All EpiPens must be approved by camp administrator on the first day of camp. It is highly recommended for you to tape a photo of your child to your child's EpiPen.
